FACULTY

WALLACE L. WHITTLE, *Principal*
Knowledge comes, but wisdom lingers.

THOMAS A. LYONS, *Asst. Principal, Mathematics*
Forever lending a helping hand.

FRANCIS E. WHIPPLE, *Director of Vocational School*
A man of wisdom and understanding.

RAY G. PARKER, *Asst. Director of Vocational School*
"All right now, put your work away."

HILMER NELSON, *Head of Department of Agriculture*
Courtesy commands respect.

RUTH E. ANDERSON (Mrs.), *Secretary*
A smile for each, a friend to all.

LAURA NASH, *Asst. Secretary*
"What can I do for you?"

MARION R. FORTIER, *Secretary of Vocational School*
Ready, willing, and able.

HARRY ARLANSON, *Coach*
Good sportsmanship is his password.

LEWIS H. BACON, JR., *Auto Mechanics*
Quietness often shows worth.

HELEN W. BARTLEY, *Home Economics*
Style, I am thy slave.

ESTHER L. BENSON, *Home Economics*
Responsible for those delicious odors near 208.

JAMES F. BOLAND, *Sheet Metal Mathematics, Science, Drawing*
Knowledge is a treasure, but practice is the key to it.

PRESCOTT B. BROWN, *English*
Beneath that famous, well-versed mind
A heart is found that's golden lined.

ERNESTINE R. CANNING, *French*
Always ready with a helping hand.

HAROLD E. CLARKE, *Sheet Metal*
Difficulties dissolve before a cheerful spirit.

PAUL C. CLEAVES, *English, Guidance, Driver Education, Visual Education*
Although his driving class is new,
We feel it surely will come through.

JOHN K. DELAHUNT, *Science, Social Studies*
Though slow in manner and quiet in speech,
Mr. Delahunt, to us, is still a "peach."

HARRY F. DUNCAN, *Printing*
Ever willing to listen, ever ready to help.

WILLIAM A. DWYER, *Cabinet Making*
A job worth doing is worth doing well.

GRETTA L. DYAS, *Science*
Seek and ye shall find.

WILLIAM H. ERWIN, *Social Studies*
A jolly, good fellow, alert and alive,
An excellent coach for the basketball five.

ALICE K. FAY, *Commercial*
Few things are impossible to diligence and skill.

EDNA G. FLAHERTY, *English, Guidance*
True to her word, her work, and her friends.

JOHN T. GANNON, *Latin, Mathematics*
For he's a jolly good fellow.

JOHN T. GHIORSE, *Aviation, Social Studies.*
To all his students, he is a friend,
A helping hand to each he'll lend.

MARIE K. GHIORSE, *English, Mathematics, Science, Social Studies*
Patience is the key of contentment.

BETTY GILL, *English, Social Studies*
Hope you've enjoyed your stay here as much as we've enjoyed having you.

MARY L. GLOSTER, *Librarian*
Cheerful and always ready to help.

WALTER C. GUTTERSON, *Guidance*
Of all the virtues man can possess,
Above them all is friendliness.

OLIVE E. HACKETT, *Commercial*
Her aim—to make business a pleasure.

LEO HAYES, *Physical Education*
Sense is his helmet; wit is but the plume.

Though many miles across the sea,
She's not forgotten by you and me.

ANITA L. PETRUCCI, *French, English*
Small in size and quiet in speech.

CHARLES P. PIEPER, *Carpentry*
A kindly word, a helping hand.

ALVAH RAYMOND, *Mathematics*
Good nature goes hand in hand with his teaching.

HELENA F. REIDY, *Latin, Social Studies*
The deepest river flows most silently.

ERIC A. ROY, *English, Mathematics, Science*
Something new has been added.

HAROLD A. RUDOLPH, *Carpentry*
He who has kindly understanding holds the key to success.

TAIMI R. SALO, *Physical Education*
"Fall in—count off by twos!"

ARTHUR B. SCOTT, *Mathematics*
There is no royal road to mathematics.

EVELYN SILVESTER, *Art*
Art is not her only talent.

EVA SKALA, *Home Economics*
Where food is concerned and good taste that lingers,
She holds the key beneath her fingers.

JAMES F. STEELE, *Social Studies*
The only way to have a friend is to be one.

HERBERTA L. STOCKWELL, *Nurse*
After complaints of illness, the temperature she takes,
Thermometers tell the difference between true illnesses and fakes.

ERVIN STUART, *Science*
A welcome addition to our faculty.

WALDO H. SWAN, *Mathematics*
"The next step is out the door."

MARY F. TOOMEY, *English*
Her ways are ways of pleasantness, and all her paths are peace.

MARTHA VINING, *Latin, English*
She that has patience may compass anything.

ALICE WHITE, *English*
Though small in stature, one thing is true;
As her size remained tiny, her friendliness grew.

JOSEPH K. WHITTEMORE, *English, History*
Steady of heart and stout of hand.

M. JEAN YOUNG, *Commercial*
A quiet mind is richer than a crown.

WHS AND WVS PRESENTS for your entertainment these four programs of mystery, talent, quiz, and news, under the direction of Miss Ethel MacDougall, with the aid of our sponsors, Mr. Wallace Whittle and Mr. Elmer Mapes.

Our first program is a mystery skit entitled "The Mystery of the Rolling Globe."

On the morning of September 24, 1944, the habitants of Room 109 were electrified by an unusual and terrible sound coming from the second aisle. All heads turned. Some had visions of a dynamic bomb while others were willing to settle for a common earthquake, but the rumbling and the roar had a distinctly metallic sound as if someone had set astray a mowing machine. The world globe in Mr. McCarthy's room had been used as a bowling ball, and the aisle was the alley with Hollis and Humphrey acting as pin boys. Who was that someone; he was nowhere in sight?

At this time "Investigator" Fitzgerald, who had just been called in on a special case, was chatting idly with his sister and secretary, Susan. He was investgating the disappearance of one Edward Gerry. He just had to find him to cement relations with a certain Miss Holland whose papers Gerry had borrowed. As he meandered down the corridor, mildly interested in Charlotte Hanson and Jean Walsh going in the opposite direction, he hit on "something" very important. I should say "bumped into," for it was Mr. Jack, who had just arrived at Weymouth to take over the music department. Mr. Jack jarred the investigator into a position to look directly into Mr. Whittle's office, where, big as life, stood Edward Gerry. Why was he there? The culprit who had fled from Room 109 like a streak of lightning, with Mr. McCarthy in hot pursuit, was none other than our friend Gerry. The above-mentioned is an incident typical of the happenings of 1944-1945.

"That must have been quite a year, your first one here," said Private Investigator Garcia, who had dropped in in the middle of the story.

"It was, indeed," said Susan. "The students were always busy attending football, basketball games, and spring and winter track meets. Every Saturday night many could be found at the Teen-Age Canteen."

"Yes, '44 certainly was a good year—except for the war, of course," added Garcia.

"And now from Larry Orcutt's Palisade Room, Station WHS 1946 brings you Daniel Sheehy and his Talent Scouts, presented by Garcia's Noodle Soup. Here he is, friends, your favorite and mine, our congenial Master of Ceremonies, Dan Sheehy!

"Thank you, Herman Sherman, and good evening, folks. Here we are, gathered together in the beautiful Palisade Room once more, to let you, the audience, choose our future stars of radio, stage, and screen. Without further adieu let's get right on to our first talent scout and—why, look, folks! It's the popular quarterback of the Weymouth High School squad, James T. Coveney. Good evening, Jim."

"How are you, Dan?"

"Friends, here's the fellow who had the whole South Shore talking this fall. Everyone was amazed at his speed and agility and his almost dwarflike size. Let's give him a big hand. What, or shall I say whom, have you brought here tonight?"

"Well, Dan, tonight I've brought a boy who plays the piano. I caught his act first at the Weymouth Canteen. He has also appeared at many other dances and has had his own orchestra for two years. He hails from North Weymouth, his name is Danny Shea."

(Plays—loud applause)

"That was great, Danny. You'll have much success, I know. Now, a word from our sponsor."

"Remember, folks, that Garcia's Noodle Soup is the best in the market. For years the Garcias have been fine noodle-growers; only the best goes into the mix, along with delicious dehydrated chicken fats. So get it today in the neat little package or the handy little can—"Art Garcia's Noodle Soup Mix." Now our next talent scout is the popular guard of the J. V. Basketball squad, Russell Slattery. How are you, Russ?"

"I'm pretty well, thanks, Dan, no complaints."

"Whom did you bring for us to hear this evening?"

"Well, Dan, I've brought a comedian. He never has really appeared as a professional, but I think he's top rate. He starts his act by playing the jew's-harp and —well, here he is, see for yourself—Thomas Shields of Weymouth Landing."

"Wasn't he great, friends? Another winner we know."

"Well, well, look who's here! A very beautiful young lady appears as we are graced by a talent scout of the fairer sex. Miss Jean Walsh, sophomore pride of the cheerleaders. Hello, Jean!"

"Thank you very much, Dan, and good evening!"

"And whose talents are you sponsoring tonight, Jean?"

"I found this fellow while he was playing for some of his friends at a house party one night. He has studied the accordian for many years, and is the best in his field. He, too, comes from North Weymouth, Joseph Charron."

"Thanks again, Jean. Now in the Garcia's limelight stands Joe Charron.
(Plays, more loud applause)

"Fine, Joe, fine. Best of luck to you."

"Here comes another lady who is very easy on the eyes, Miss Barbara Luscombe."

"Once again, how are you, Barb?"

"Great, thank you, and you?"

"Oh, I still manage to totter around. Whom have you brought and hurry, because our time is going fast."

"I've brought a singer, Phyllis Frye, the red-haired star from North Weymouth."

(Sings, loud applause)

"Well, folks, we have a four-way tie. All four have hit the top of our applause meter. Therefore, all four will appear on my show tomorrow morning. Time is fleeting so we must hurry. Remember Garcia and old Dan Sheehy. So for now we say goodbye!"

"This is station WHS, on your dial. Tonight on Dan Sheehy's Talent Scout Program, you heard Danny Shea, Thomas Shields, Joe Charron, and Phyllis Frye. Your announcer is Richard Sherman. Good evening."

"Good afternoon, fellow students at Weymouth High School. This is your announcer Dick Rosa bringing you the following Quiz Program. I present to you at this time Ronald Smith who will introduce to you our first contestant for the afternoon, Barry Connell, who will try to answer the first question."

"Barry, who was the master of ceremonies who did so well to keep everyone laughing at the Junior Party?"

"Gerald Fitzgerald was the fellow, and he really did a wonderful job."

"That's right, Barry. I should like you to answer one other question before you leave the stage. Who were the entertainers at the Junior Party?"

"Danny Shea was a piano player whom everyone wanted to hear play all the evening. Phyllis Frye was the singer with the beautiful voice. There were also some line selections on the piano by Bobby Knapp and Geraldine Follett, and a duet by Barbara MacDonnell and Ruth Jordan. Joseph Charron played many selections on his accordian which everyone enjoyed. Carolyn Dewey sang, and there was another duet by Phyllis Frye and Elizabeth Stein. Philip Nash received much applause after his tap-dancing selection."

"Thank you. We take pleasure in awarding you a genuine wolf-whistle for which we know you will find a great deal of use.

"Our next contestant, this afternoon is Miss Katherine Weeks. If you will please step up to the microphone, I will ask you your first question.

"What was the biggest event of 1947? Tell a little about it."

"I think the biggest event was the Junior Outing. Everybody was present and we had a most enjoyable time. Some of our classmates were asked to entertain on the way to Provincetown. Danny Shea played so well that the boat was rocking in time. It certainly did rock. Everyone thought it was fun until about noon, and then many had a different opinion. A few were the seafaring type and didn't get sick, but the majority were hanging over the railing at one time or another. The dancing was magnificient when you could stand up. On the way home it was enjoyable for many to sit on deck, watching the sun go down, listening to groups of girls and fellows singing popular songs. Even the teachers who went along enjoyed the trip."

"Thank you, Kathy. For your efforts we award you a complete set of physics books."

"Now, I should like to have Ellen Welch come to the microphone. Ellen, would you tell us the teachers whom we welcomed back this year, and also those who left.

"There were many teachers who came back to Weymouth High this year. Mr. Cleaves, Mr. Kelly, and Mr. Mitchell were welcomed back. Mr. Erwin from Braintree joined the Weymouth teachers. We were all glad to welcome Miss Flaherty to the Guidance Department, but were sorry to see Miss Nye leave for England as our exchange teacher."

"Thank you, Ellen I am sure Miss Nye enjoyed her trip and learned many interesting facts."

"Will William Ewan please step forward and answer the last question for today?"

"Bill, who were the lucky girls who were chosen cheerleaders for 1947-1948, and who were the boys who were to be our co-captains on the football team?"

"The girls were Patricia Pitcher and Barbara MacDonnell, and they really did a good job along with the other girls. The fellows who were chosen as our co-captains were Jimmy Coveney and "Chubby" Bicknell.

"Thank you, Bill. In behalf of our sponsors we now award you this carton of cigarettes.

"We shall now sign off with a few words to our listeners. If you have any talent and would like to display it, see Mr. Jack and join the high school band. If not the

band, join the choir or orchestra. It is an excellent opportunity to display any talent that you may have. In conclusion, I wish everyone success in his senior year."

"This is your Station WHS and WVS news reporter, Allan McKinnon, speaking and bringing you the latest news from Weymouth High School, including events of the past few months from September 1947 to June 1948.

"Weymouth, one of the larger and stronger nations in this area, has had a fairly successful campaign in the Battle of the Gridiron, with only two setbacks by Quincy and North, and a brilliant victory over mighty Brookline. Several of the members of the army under General Arlanson were named among the section's better soldiers. A banquet and ball were given in honor of the soldiers. At the banquet, two decorations were awarded, one for bravery and the other for good conduct.

"The air force, commanded by Major General Page, has chalked up a good score in the airways despite a bumpy beginning. It now looms as one of the most powerful forces of its class in the surrounding nations. 'Flyers on the boards' are such speed-aces as Lt. McBurnie and Lt. Connell.

"Admiral Erwin brought his fleet safely through the sea battle of the loop after a long, steady fight under constant fire and aerial attacks. Some of the commanders of the various ships included Murphy, one of the more aggressive and clever captains, Coveney, Garcia, Bicknell, MacKinnon, and Slattery.

"Representatives were sent to Boston to sit in on important meetings and to take charge of the government for one day. Those taking part in this were Representative George Bicknell and Senator Francis Butler.

"The Theatre Guild, under the able supervision of Miss Flaherty, presented a three-act comedy-mystery, entitled 'Home Sweet Homicide,' which ran for two years on Broadstreet. The cast was a competent one.

"Concerts during the winter and spring were presented by Mr. Jack, Supervisor of Music at Weymouth High.

"Jesse James, a Weymouth auto dealer, presented the school with a duo-control automobile which is to be used in the recently organized Safety Driving Class, under the direction of Mr. Cleaves.

"Many members of the Carpenters' Union were kept busy constructing a drawing room for Mr. Klay, a prominent draftsman. They are also building a factory in which to train apprentices, also a mansion for Mr. Driscoll, a professor.

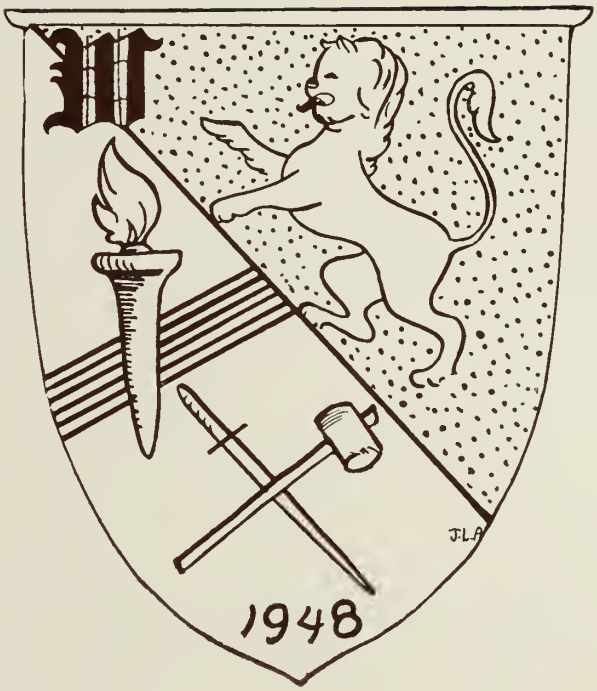
"The carpenters, cabinet makers, printers, auto mechanics, and sheet metal workers held a convention recently at which time samples of their work were on exhibition.

"There was a great gathering of prominent socialites at the St. Valentine's Party held recently in the spacious ballroom of the Hotel Royal.

During the year the secretarial department under Miss Norris was kept very busy aiding all teachers with their work in every way possible.

"After the Class Banquet, to be held tonight, and the outing Friday, many of the older Weymouthites are leaving to study in universities abroad. Some have secured positions; others are leaving for parts unknown."

"With this program we conclude our broadcasting for the year 1948. We want to thank our sponsors and their assistants for their endless work in helping us to make these past four years beneficial as well as memorable.



Class Prophecy

The scene is a dark and lonely forest. In a clearing, perched on a rock, a girl is quietly sobbing in despair.

"What, oh, what, am I going to do for the prophecies of the Senior Class? Will no one help me?"

Far, far away, a kindly deity heard her plea and took pity on the forlorn prophecy chairman. A command was sent to the Milky Way to send its best agent to aid her.

As the squardron of dazzling white stars detached themselves from their heavenly sockets and winged their way towards the dismal clearing, rumors abounded on earth that the men from Mars had started an invasion by bombarding our planet with flying discs. Then before Charleen's startled eyes, the stars made a perfect landing. From each snowy steed there stepped a wizened gnome, who came forward to stand in line with his comrades.

When the roll had been called, one, who was evidently the spokesman, marched directly in front of the frightened girl and soothingly said:

"Please don't cry any more, young lady, for we possess the power of prophecy. Your slightest wish is our command, but you must hurry for our work must be finished before dawn."

And Charleen, with heartfelt thanks, mentioned the name of each and every senior in the Class of '48.

The first rays of the morning sun smiled upon a weary, but oh, so happy, chairman as she jubilantly gathered up her notes.

The prophecy committee gratefully acknowledge the splendid help of those pixies, and herewith entitle their literary effort "The Flying Discs."

THE WATER-BEARER

JANUARY 21 - FEBRUARY 19

kind-hearted + logical
gentle

You are born under Aquarius. You are impulsive, dependable, sympathetic, and intuitive.

JANUARY 21

NORVE, JOHN—John Norve, the fish tycoon, who made his millions by cornering the salted sardine business. He is now opening a large fish market in Weymouth Landing.

PECKHAM, ALICE—Alice is such a good talker that she now owns a store called "Peckham's Headgear". In fact, the last time the Prince of Wales' horse fainted at the sweepstakes and the Prince remarked, "Blimey, I've lost the Derby", Alice had sold him one dozen silk opera hats before he recovered.

JANUARY 22

LOUD, WARREN—Men, do you have trouble with women? Read Loud's book on "How to Overcome the Weaker Sex".

JANUARY 24

HAYES, JOHN—John's family knows where its next mouthful is coming from. No shopping around now, for he's general manager for the A&P groceries.

JANUARY 26

COLARUSSO, JEANE—Jeane is now the wife of that famous heavyweight champion, Eddie Delnick. She's a ringside fan at every match.

VAN NAMEE, FLORENCE—The mystery of why all men passengers of the plane "Zippo" have been coming off the plane in a dazed condition has been solved. Florence is the stewardess.

JANUARY 28

FRANCIS, CHARLES—Charlie, who has turned playboy, has been seen on all the opening nights at the large plays and is a regular customer of the race-tracks, since he inherited five million dollars from his great grandfather, Ebonizer Francis.

JANUARY 29

LITTLEFIELD, MARJORIE —"Margie", who has kept her eyes peeled on men for a long time now, has finally settled down with her two sets of twins in her small cabin in the mountains.

LYONS, PATRICIA—"Pat" is now a private secretary to an important government man. She gives the credit to her training at Weymouth High, not Brookline.

JANUARY 30

THOMPSON, PAUL—Paul is now selling Chevrolet cars for a local agency. He has installed a new device which makes running out of gas possible at any time.

JANUARY 31

CONNELL, BARRY—Barry will be seen at the dentist's office helping his fellow classmen at Weymouth High with their dental troubles.

FEBRUARY 1

EASTER, CHARLES—Charlie is now the owner of a long string of theatres which stretch from coast to coast. This is a far cry from the days when he was an usher in Weymouth, but as Charlie says, "To understand a business you have to start at the bottom and work up."

FEBRUARY 2

MURPHY, ROBERT—"Bob is the star centre for the Boston Celtics, who have won the championship every year since Bob has been with them.

WALLING, PAULINE—In her spare time, Pauline writes the gossip column for the "Ledger," as she is now a telephone operator and learns all the latest news.

FEBRUARY 3

REMONDINI, ERNEST—Girls, if you want to look glamourous, go to Ernie's studio on the corner of Sunset and Vine, in Hollywood. The reason it's on the corner is that Ernie gets twice the view of the beautiful girls that patronize his studio. You know—coming and going?

FEBRUARY 4

FEBRUARY 12

PANETTA, ANN—Ann is the popular ski instructor at Sun Valley. No wonder the classes have been so large lately!

FEBRUARY 16

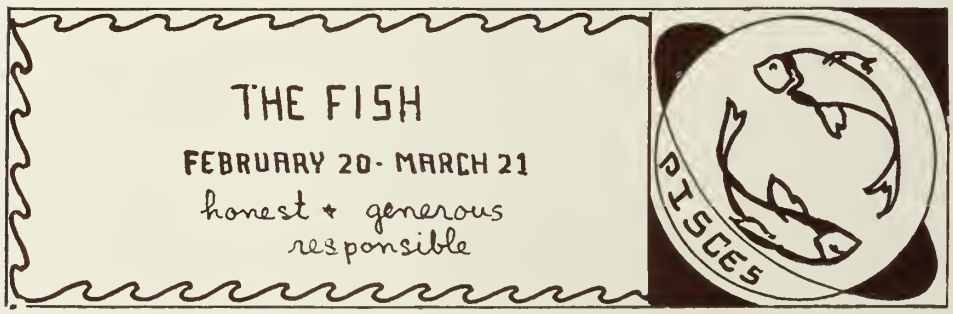
ALLEN, SHIRLEY—Shirley has her own beauty shop. It is about the busiest place in town. All her friends come to get everything from manicures to facials.

GOODWIN, HOWARD—Any of you million-aires who're having trouble with your income tax better get in touch with public accountant Howard Goodwin. He sure has a way with figures. (That includes even the "new-look")

KNIGHT, MURIEL—"Mid" has just opened up a shop for girls who want to get rid of excess freckles. We hear that business is booming.

FEBRUARY 17

STENBERG, HELEN—Why are the ski trains to Lake Placid so crowded with young men? Helen is now instructor there.



You are born under Pisces. You are unassuming, conscientious, impressible, and agreeable.

FEBRUARY 20

DUNCAN, NATALIE—I heard that almost everyone in the Weymouth Vocational School is taking printing. Is it because Natalie is the new teacher or because of the new electronic automatic printing press?

HUGHES, CONSTANCE—They say Connie's Memoirs (published under the title, "The Chicken and I") has a chapter on Weymouth High. That should be interesting to ex-inmates of 216!

FEBRUARY 21

APPLEBY, HENRY—Henry has made his name famous in building small homes for our generation, and from this has won the contract to design and build the new high school at North Weymouth.

FEBRUARY 24

IMLACH, JAMES—Now that Jim's a big wheel at CBS Studio, he has wireless connections with all the pretty girls from here to Antarctica. (How do you say "Hubba!" to an Eskimo, Jim?)

SPENCER, WILLIAM—Bill has a job making mistakes on a typewriter and then exploding his wrath into a device which gives constant ventilation for the entire office building.

FEBRUARY 25

LETOURNEAU, JEANETTE—Jean has just received another "Oscar" for the best actress in Hollywood. She is said to be seeing a certain football player very often.

ROCKWOOD, JACQUELINE—"Jackie" is the main reason why the South Shore Hospital has so many male patients. She's a nurse and a very pretty one, too.

FEBRUARY 26

RIVELLE, PATRICIA—Have you seen the new calendar that has just come out. No, fellers, those aren't Varga girls. If you will look closely, you will see Pat's name in the lower corner. With orders coming in as they are, we know that her future has been assured.

MARCH 1

FOLLET, RUTH—"Gerrie's" a housewife who wields a mean broom and a farmer's wife who knows "how to keep 'em down on the farm."

MARCH 5

KNAPP, ROBERTA—"Bobby" will be a personal secretary to a handsome, wavy-haired man and it is said that marriage plans have been made.

PAPAGEORGE, THALIA—Thalia is that well-liked new teacher at her old Alma Mater, Vassar. Her pupils would do well to imitate her good manners.

MARCH 5

SHERMAN, RICHARD—Dick has now climbed the ladder of success. He is now the caretaker at Great Hill.

MARCH 7

STOKES, RITA—The huge business of a certain restaurant in East Weymouth isn't because of the exceptionally fine food, but because Rita is the head waitress there.

MARCH 12

CLAWSON, BARBARA—Barbara is the redhead that completes the set of a blonde, brownette, and brunette for a widely advertised shampoo called "Hay-wash."

CROMACK, ALAN—Alan is fishing. He spends long hours every day trying to catch that record breaking haddock. He is also known for his marksmanship when hunting rabbit.

MARCH 26

O'CONNOR, JOHN—Since Jack bought the new Roller Skating Rink in East Weymouth, there have been many accidents. Maybe the reason is that he drives his car about the rink to test the brakes.

MARCH 27

COLLINS, JOHN—When you hear the name David O. Zelznick and Sam Goldwyn, you immediately think of John Collins, one of our great motion picture producers.

MARCH 28

DEWEY, CAROLYN—Carolyn is now happily married and settled down in a little white house with a picket fence in the country.

GERRISH, KENNETH—Any one who wants "to tell it to the Marines" had better get in touch with Kenny. (Captain Gerrish, no less!)

MARCH 30

BOYLE, WILLIAM—I think everyone knows by now that Bill is the Navy Recruiting Officer for Weymouth. He has already had 500 high school boys sign up and expected at least 300 more by January 1, 1970.

HYNES, AGATHA—A fine Weymouth fan is Agatha. Marrying that "guy" from the Quincy football squad was bad enough, but if she sends Jr. to Quincy High—!

MARCH 31

McCARTHY, ARNOLD — Ever since Mac built that rocket ship, he has been visiting his friends in Mars at least 5 times a week. He intends to live there when he gets married.

MOORE, STANLEY — Stan, the influential lodge member, has profited by his "Aggie" Course, and, aided by scientific methods, owns a model farm on Worcester Turnpike.

APRIL 1

BORAKS, FRANKLIN — Franklin is now married and in business with his father. He spends some of his spare time playing for some of the leading orchestras in this area.

THOMPSON, CAROLYN—Boys, if your nerves are on edge, and you think you're seeing things when you're really not, go to Carolyn Thompson, the pretty psychiatrist.

APRIL 2

WHEELER, PAUL—Paul is still working on his two great inventions: (1.) an auftomatic car that will drive itself so Paul can occupy himself with other things. (2.) an alarm clock that will keep reminding him of the time so that he won't be late for important engagements.

APRIL 5

DANUBIO, DOROTHY—Dot has opened her own beauty shop in East Weymouth.

DOWD, BETTY—Betty is now a partner in the family business. While her father and brother supply the brawn, Betty gives off with the brains. No wonder the firm is so successful!

APRIL 6

DARRIN, DONALD—Where there're women there's Don. I hear that he's doing great business with that girls' ranch he owns in Texas. His pastime is watching the Weymouth High School girls play tennis when they have gym.

APRIL 8

MILLAR, JAMES—Jimmy is now teaching history at Weymouth High. I wonder if he ever tells about the history he made here from '41-'48.

APRIL 9

GOMES, LUIZA—Does the girl on the cover of *Harper's Bazaar* look familiar? You bet! It's Luiza, jewels and all.

LINDSAY, DONALD—Don's the fellow that's ruining the Weymouth High School business by selling pencils to the students at half the price the school charges. He wants to get married, but is having a hard time trying to save the money for the license. Good luck, Don.

APRIL 10

PAONE, MADELINE—"Maddy" organized a most efficient Helpful Bureau. Its success was assured by her hard work and wonderful personality.

APRIL 12

MAC DONNELL, BARBARA—Barbie is touring the country with Tommy Dorsey's band. She is an outstanding singer and it is rumored that she is going out on her own.

SEPTEMBER 15

MACKENZIE, THOMAS—Tom is the well-liked basketball coach at Weymouth High. He says he doesn't believe in cutting boys from the squad.

SEPTEMBER 16

TISE, MARGUERITE—Men! Do you need a secretary? If so, hire Peggy. She not only does clerical work, but also mends socks and sews on buttons. If you want someone that can't be beat, hire Peggy Tise.

SEPTEMBER 19

COYLE, FREDERICK—I heard that Freddy is doing a great business since he hired twenty Weymouth High School girls to drive his taxies. His part-time job is sleeping.

SEPTEMBER 19

DONELLAN, CATHERINE—Cathy has become a well-known artist. Her paintings can be seen in all the popular galleries.

SEPTEMBER 20

ZEOLI, WILFRED—A drastic change has come over Willie in the last few years. From a boy who has never said much, he has become the world's greatest sports commentator.

SEPTEMBER 21

WHITFORD, PHYLLIS—Phyllis is now secretary to that handsome new doctor in town, but it's rumored that he's going to lose a secretary and gain a wife.

SEPTEMBER 23

BRANDT, PHILIP—Philip has just taken Arthur Fielder's position as conductor for "Pop's" Symphony.

PRICE, GEORGE—George is still an usher at the Weymouth football games while awaiting word from the President who is going to find him a good job at the White House.

You were born under Libra. You are sociable, talented, a lover of beauty, and you are also artistic.

SEPTEMBER 25

MILLIGAN, GLORIA—We don't know how she did it, but "Glo" is now an officer in the female division of the Coast Guard. She will be discharged shortly though, and will settle down to keep the home fires burning for someone else.

SEPTEMBER 26

ALLEY, GRACE—Grace has her own fashion shop in Weymouth. She has become so successful at designing that Weymouth is now known as one of the leading fashion centres of the world.

SEPTEMBER 27

BLUME, MARILYN—Marilyn is still single and has a high position in New York. She has been engaged a few times, but as usual, with so many men around she cannot make up her mind which one she wants.

SEPTEMBER 30

WALSH, JEAN—Jean is the new model for the old slogan, "the skin you love to touch."

OCTOBER 1

LUNDGREN, ALFRED—Al is doing big things in the world. He has an elephant repair garage in darkest Africa.

OCTOBER 3

KOOPMAN, FRED—Fred is now driving a Greyhound bus across the country. Keep your eyes on the road, Fred!

TRAVIS, ROBERT—Bob is now a renowned literary critic, judging from such famous novels as *"Superman," "Batman," "Flash," et cetera.*

OCTOBER 4

HAWES, JOHN—Now that John's a successful dentist, what we want to know is when he's going to invent a painless drill—ouch!

OCTOBER 8

THOMPSON, RICHARD—Dick is now passing out cigars because one of his prize hens just had baby chicks.

OCTOBER 10

MACONACHIE, ROBERT—Bob is the publisher of the largest selling western story magazine. They say he still reads all types of Western stories just as he used to in school.

OCTOBER 11

EVANS, HARRY—Well, Harry doesn't mind working at all now that he has women station attendants that serve gasoline with a smile.

SMITH, ROBERT—Bob is the man who turns on the red lights after each Boston Bruins' goal.

OCTOBER 12

MC BURNIE, RICHARD—Dick's name has been seen frequently in the headlines. His sensational catches for the Boston Yanks have everyone raving.

OCTOBER 13

BROOK, CRANMORE—"Beefy" is a combination pitcher and dodger for the big league. He pitches the baseballs and dodges other articles.

OCTOBER 15

DESMOND, MARJORIE—Marjorie has become head nurse on the staff of the Massachusetts General Hospital.

OCTOBER 16

SCIOSCIA, RUTH—Women attention! Ruthie's beauty salon has just opened. Go in any time and you'll come out a new woman. They say she acquired her technique from continual practice in the girls' washroom at Weymouth High.

OCTOBER 17

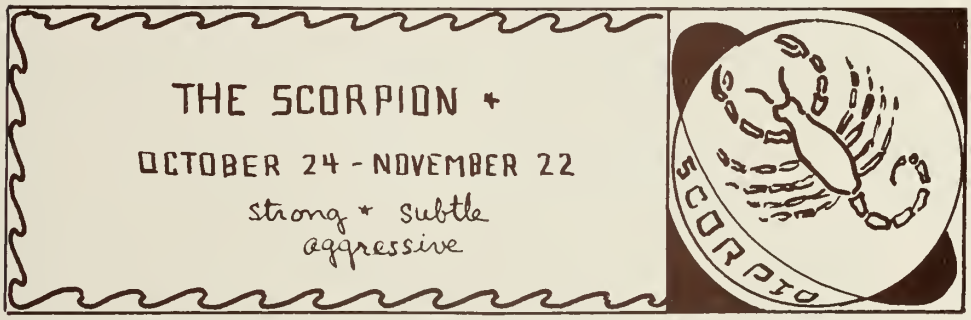
THAYER, WILLIAM—Bill is the new proprietor of a leading New York Cafeteria. His motto is: "Don't divorce your wife; eat here instead."

WALSH, DONALD—Donnie is now a famous romantic movie actor who has captured the hearts of all teen-agers.

OCTOBER 19

LYONS, JOHN—Johnny has settled down with his blonde wife and three children and is bringing in money as a riveter at Fore River.

SYBERTZ, NORBERT—"Norb" is now as honest as Abe Lincoln. Abe walked three miles after a book, but Norb ran three miles from a cop.



You were born under Scorpio. You are forceful, capable, discriminating, and magnetic.

OCTOBER 24

HENNEBURY, LAWRENCE—Dick now owns the Weymouth Diner; everything on the house for the class of '48.

OCTOBER 25

WALSH, VIRGINIA—Ginny is now secretary to the President. Examples of her shorthand may be found on the Freedom Train, along with other important documents.

OCTOBER 30

ANDREWS, EDVIA—Edvia is the most envied employee at the new South Weymouth Airport, because it is her work to greet all the pilots as they come in.

OCTOBER 31

DUSSAULT, ESTELLE—Estelle, after completing her course at Business School, has become private secretary to a well-known lawyer in Boston.

NOVEMBER 4

CUSHING, MARGARET—Since Peg became a full-fledged nurse at the South Shore Hospital, there has been a great increase in patients.

SPRAGUE, ROBERT—Bob is now a very wealthy man as a result of picking the winners at Narragansett.

NOVEMBER 5

CAMERON, DONALD—Looking for Don? Go to Taunton. Don't be alarmed; he is not insane, but is the head physchiatrist there.

KNIGHT, PRISCILLA—Priscilla has become an author and a very good one. Her latest book is "Just Keep Laughing Along."

NOVEMBER 7

CUNNIFF, ROBERT—Bob is really making a name for himself when he blew up the Brooklyn Bridge. He got that idea from the time he blew up the Weymouth Vocational School. His hobby is playing with dynamite.

NOVEMBER 12

COSTA, DELORES—If you ever go to the smallest town in the United States, you couldn't miss a shady street and a little vine-covered cottage. In this house Senator Bennett, wife, and six children live. Of course, you couldn't guess who the Senator's wife is.

GALVIN, MARY—Mary is that successful model whom you see in all the latest fashion shows and on all the magazine covers. She says she got her experience at Remick's while still a mere child.

HEALEY, EDWARD—All the town is talking about architect Teddy Healey's plans for that new high school complete with air-conditioned lounge behind the Trade School and elevators to 304.

NOVEMBER 17

NEWTON, JULIA—Word has just been received that Julia is now Superintendent of Nurses at New York Bellevue Hospital. Patients say her smile is the reason.

TITUS, BARBARA—Barb is now stopping runs in stockings for a living. She got her experience at Weymouth High School.

NOVEMBER 18

VEAZIE, WILLIAM—Hot off the press is the news that our ambassador to Russia, William Veazie, is still arguing with Molotov after twenty years, over the fifty-five cents they owe us.

NOVEMBER 19

DE VITO, RALPH—"Give a man half a chance and he will show you what he can do" came true when I saw that Ralph runs a "Rest Home" for old people. Be seeing you, Ralph.

MAC KINNON, WILLIAM—Bill is a successful manager of a large clothes shop for men. Bill always did have a "nice" eye for clothes.

WALKER, BARBARA—Barb is very happy at her present job. She tours the country looking for contestants to enter the America's Strongest and Handsomest Man Contest. Maybe she'll win the winner.

NOVEMBER 20

BRESNAHAN, RAYMOND—Pee Wee is in the watch business as he put so much time in after school.

CASS, ROY—Roy will play his trombone with the Boston Symphony Orchestra.

NOVEMBER 22

MC GRORY, MARY—Patsy is a capable stewardess for the Trans-Continental Airlines. Her preferred passenger list seems to be headed by a certain Hinghamite.

PARDO, ALFRED—Perhaps you've seen Al's slinky car? Well, he's in the automobile business now. He tells us that cheap automobiles would be all right if they weren't so expensive.

You were born under Sagittarius. You are genial, unselfish, fastidious, and friendly.

NOVEMBER 23

TUCCI, MILDRED—Milly is now a dressmaker. She also does the housekeeping for herself and family of five. It is a hard job, but she'll do all right.

NOVEMBER 24

CHELLIS, DOROTHY—Dorothy, after a very successful business woman's career, is happily married and resides in Haiti. She never did like these cold winters.

HOLLIS, CARTER—Structural engineer Carter Hollis is really going up in the world. Twenty-one stories and that skyscraper he's building is only half-finished.

NOVEMBER 26

FERULLO, DONALD—Don always wanted to be a movie actor and his dream came true when Paramount signed him up for a five year contract to play opposite Dorothy Lamour in "Something's Falling."

NOVEMBER 28

BLACKBURN, ELIZABETH—Liz is working as secretary to her husband at his office. It is a wonder how she can do her work efficiently with her three children always shouting and climbing all over her.

JOSE, BARBARA—Barbara has moved to California and is competing with Tom Brenaman with her restaurant where she will kiss all the old men.

DECEMBER 3

BURGESS, HUGH—Hugh will be the chief printer for the "Boston Traveler" and then in later years will become editor.

BURR, WILLIAM—Bill will be seen traveling around the country with his own carnival.

JAMES, BARBARA—Barbara will be the model housewife of 1955 and will be seen walking down the street with five children tagging behind her.

DECEMBER 4

HOWLAND, CHARLES—Admiral Howland is handling the navy very well.

REES, DORIS—Doris is the beautiful young lady that you see on the magazine covers modeling "The New Look." Very good, Doris.

DECEMBER 5

LAMBE, WILLIAM—If you want to fly, go to Lambe's Airport. He's the best pilot in the states.

DECEMBER 6

KALAJIAN, HAROLD—Harry has become a millionaire on account of his new rocket-plane factory and is starting a chain of them across the country.

DECEMBER 9

SULLIVAN, ROBERT—Bob is now spending his days standing on a street corner with his new invention which lifts girls' skirts up to their knees. He is very disgusted with the "new look."

DECEMBER 10

PRAY, HELEN—Helen is now a teacher at W. H. S. She liked school so much that she couldn't bear to be parted from it. She has an office of her own and she instructs the boys and girls how and when to skip periods. Drop in anytime!

DECEMBER 12

PICKARD, DELORES—Delores is a wonderful cook. The Home Economics Course at W. H. S. is responsible for that. She tells how to blend goldfish and string beans with dressing to make an attractive salad—the taste is immaterial.

DECEMBER 15

MAC KENZIE, JANE—Jane has become the leading nurse at the Quincy Hospital and it is said that the men patients are the only ones cared for.

DECEMBER 16

CIPULLO, JOHN—When you go to the largest department store in your town, it will be one of John Cipullo's many chain department stores all over the U. S.

LOPAUS, JOHN—Roy, who has had a hard time trying to master physics at Weymouth High, will still be trying to get through the course in 1955.

DECEMBER 18

DWYER, LAWRENCE—If you want a yacht built, see "Duzer." He builds anything from a canoe to a battleship.

PITCHER, PATRICIA—Patty has her own modelling school. If her students always look as attractive as Pat does, all girls should take the course.

DECEMBER 19

ARCHIBALD, LOIS—Lois divides her time between her handsome husband and her twin sons, who continually keep her on her toes.

DECEMBER 20

MATHEWSON, SHIRLEY—That blond secretary, often seen on the boss's knee, is out "Shirl." Of course, the boss is none other than her old childhood sweetheart and present husband.

MC PHEE, WILLIAM—Believe it or not, Billy is now rich! He minted a large fortune be selling exact replicas of his "Bomber" to unsuspecting juveniles.

RAGO, ARLENE—Arlene's neatness is now fully appreciated. We hear she keeps her new home in tip-top condition.

DECEMBER 20

SUMMERS, RICHARD—Dick is now a "H—oboe" player in the Boston Symphony Orchestra.

DECEMBER 21

BANKS, REGINA—Regina is a secretary in the New York law firm of Smith, Smith, Smith, and Smith. She finds diversion from her work by getting autographs of all the handsome leading men at the stage doors on Broadway.

BRAYSHAW, DONALD—Don is now married and is in business with his father. He is making his residence in Braintree.

BURDON, WILLIAM—Bill will have his own radio program and will be chosen the best comedian of the year.

DECEMBER 22

FORMAN, VONDELLE—The president of the First National Bank says Von's the best private secretary he's ever had. He better put blinders on her suitors if he wants to keep her long.

You were born under Apricorn. You are prudent, accurate, capricious, and ambitious.

DECEMBER 23

SWANSON, ALLEN—Allen is now employed by the Town of Weymouth to go about spraying trees in the spring time. He collects all the dead worms and sells them to a museum in New York.

DECEMBER 24

BILLARD, MARGARET—Margaret has recently been named Fashion Editor of the "Metropoliton Daily Newspaper."

DECEMBER 27

FARR, PHYLLIS—After completing a course in journalism, "Phyl" is now the star reporter of the "Boston Globe."

SHEA, DANIEL—We are happy to report that Danny is still heading the popular band poll with Vaughn Monroe as a close competitor.

SMITH, RONALD—Ronnie is known as "The Butcher" in his medical profession at the Mayo Clinic in Chicago.

DECEMBER 29

BROOKS, BARBARA—Barb is now head labratory technician at the South Shore Hospital. She has her assistants do all the work while she talks to the good-looking doctors.

DECEMBER 31

PEARSON, MARJORIE—Tune in every Monday night to the "Hour of Beauty" and you will hear Margie and her golden trumpet.

SOMERS, JOHN—John is now pointed out as Mr. Somers, the famous aeronautical engineer.

JANUARY 1

LONEY, JANE—Jane, because of her size, has joined up with some midgets and is touring the country with her giant four-and-a-half foot husband.

JANUARY 5

CHALMERS, DOROTHY—Dottie doesn't know which fellow to marry, so she decided to settle down to a job; that of Home Economics teacher at W. H. S. just after Miss Benson's retirement.

ORCUTT, LAWRENCE—Larry is the owner and operator of a famous night club in New York. They say he is putting on good shows, and, knowing him, that's understandable!

JANUARY 6

ARCHIBALD, JACQUELINE—"Jacky" has worked hard to build up a beauty salon and has proved successful, as hers is now one of the best.

JANUARY 7

LOUD, ALAN—"Al," because he made such a hit with the women at W. H. S., is now in Hollywood and has been voted the handsomest actor by all of the girls in the United States.

JANUARY 8

STEELE, RODNEY—Rodney is employed by Arthur Murray to teach the new dance step "The Hip-Hop."

JANUARY 10

O'NEIL, RITA—Rita is now Lieutenant O'Neil on the Los Angeles Police Force. She gained her promotion through her heroic efforts in capturing the bold desperado, "Two-Gun Tommy."
P. S. She writes her own accounts for the papers, too.

RAGO, HUGH—Hugh is now the parking attendant at Great Hill. Don't get caught with his girl, boys; he charges an outrageous price!

JANUARY 11

PACKARD, ROBERT—Bob is running a one-man cabinet shop, where we hear he is doing very well. He likes to make wooden elephants.

JANUARY 15

JACOBSON, BETTY—Betty will become an English teacher and will take the place of Mr. Brown on his retirement from Weymouth High.

McKENZIE, JEANNETTE—Jeannette, much to our surprise, now writes a column entitled "Who's Who That Is Who" in the "Hollywood Gazette." And a very glamourous columnist she makes, too.

JANUARY 18

MACDONALD, BARBARA—Barbara, because of her pleasant smile and slim figure, will be a Power's model for the rich and well-to-do people of Wall Street.

Education for Living

by

JANE MASON BARKER

Never before have the American people seen such advancement in science as in this decade. New worlds are being opened up to us. Scientists have entered realms almost beyond our power to comprehend. In contrast to this is the lack of progress being made in the field of human relations. Should not children, from their first days in school until their graduation from college, be taught how to get along with others? They are prepared for and trained in all types of vocations, and upon their graduation are ready to earn a living. Yet they have very little education in how to live.

William Tolley, Chancellor of Syracuse University, has written, "If anything is clear in this bewildering and chaotic world, it is the unbalance between scientific advance and social control. We have a world of twentieth-century technology and stone age international relations; a world of unlimited production and uncontrolled hatred and greed; a world of magnificent intellectual achievement and of catastrophic moral failure; a world of magic and of wonder endangered by ignorance of human relations and the art of government. Thus the instruments designed for freedom have become tools of the new barbarians, and for all the promise of the new day, it may again be written, 'Where there is no vision the people perish'."

In the United States there is surprisingly little support given to humanistic study as compared with the support given to other studies. It has been estimated that less than one per cent of all the money spent in the United States for research and scholarly work is spent in the field of the humanities.

Too many Americans believe that the dreams of the great men of yesterday have been fully realized, that we have in America today the perfect democracy. But what about racial, class, and religious prejudices? These are certainly present. Only a few schools, usually in large cities, deal with these problems at all. Often boys and girls who have had none of this teaching and who have grown up idealizing democracy are shocked at the prejudice and injustice in the world.

Schools from the kindergarten upwards should begin teaching human relations to prepare for a better democracy. The children should learn not only about the North Pole and South Africa, but also about themselves, their friends, and the boys and girls like themselves in all parts of the world. They should begin preparing when they are young to know how to adjust their personalities to others.

So that they may know how to solve their problems in human relations, the children must be given opportunities to gain this knowledge by experience. Often children do not respond readily to preaching by adults, but readily grasp an idea

when it is put into action. For example, instead of reprimanding a child for continually disobeying traffic rules, a teacher might appoint him as a junior traffic officer.

Children will acquire democratic attitudes through joint projects, by choosing leaders and leading, by discussing and deciding democratically, and by learning cooperation. Older pupils could study the origin and evolution of man, and the benefits and flaws in our democracy and in the governments of other countries.

A comparatively new method of teaching which the schools are just now beginning to use is motion pictures. What a wonderful way to give children a better understanding of children in other countries—showing them authentic motion pictures! They would become familiar with style of dress, schooling, recreation, and customs of other countries. Perhaps then they might understand and take for granted different clothes, different religions, different accents, or different mannerisms; instead of thinking that all these things are wrong because they are different from their own.

At the beginning of the Second World War, compelled by necessity, the high schools and colleges quickly reorganized. They added new practical courses to their curricula to prepare the students for employment in war industries and for the armed forces. Certainly it is necessary now to provide education in the schools for life in this world which so gravely needs better relations between citizens, leaders, and nations.

Education should be given not only for business or science or law, but also for marriage, family life, and better relations among workers and employers. Getting along well with other people is one of the most important lessons to learn.

Although education in human relations must be taught in the schools, the background for this education should be given in the home. And then when we learn to get along with each other, each person with his neighbor, the worker with his employer, and each nation with the other nations of the world, we shall not have to worry about industrial problems or wars, here or abroad.

The simple rule to follow in all human relations, great as well as small, is the golden rule, "Do unto others as you would have them do unto you."

HIGH HONOR ESSAY

Women in Science

by

MARION WHEATON CARR

"They talk about a women's sphere,
As though it had a limit;
There's not a task to mankind given—
There's not a place on earth or heaven—
Without a woman in it."

—Kate Field

The story of women's struggles for the right to be the equal of men in all fields is a comparatively recent one in the history of the world. Nevertheless, it has taken a great deal of time and effort for women to advance to their present status. It wasn't until 1919 that Congress passed the nineteenth amendment to the Constitution allowing women to vote in the United States, although Susan B. Anthony had made such a proposal as early as 1869. Today in science, as in other fields and occupations, women are accepted and, in general, are on equal terms with men. The number of women in science, however, though rapidly increasing, is still definitely in the minority.

Open to high-school seniors interested in science are the annual Science Talent Searches which the Westinghouse Education Foundation sponsors. This institution gives the forty winners $11,000 each and a trip to Washington. In the past six years sixty-three of the winners have been girls.

The field of science has four main divisions: biology, geology, chemistry, and physics. Within these or, perhaps, in between the four lie the various sub-divisons.

From biology comes Professor Maud Slye, one of the greastest authorities on cancer in America, sometimes called "the American Curie." Upon entering the University of Chicago, she became interested in psychology, then psychiatry, particularly the problems of heredity. Her real work began as assistant to Professor C. O. Whitman, famed biologist. She used to spend eighteen hours and more a day experimenting with mice, sterilizing the cages, breeding and crossbreeding. One day in 1910 she noticed an abnormal growth on one of the little animals. That was the beginning of her cancer research. After countless experiments she gave a report to the American Society for Cancer Reseach, entitled "The Incidence and Inheritability of Spontaneous Cancer in Mice." In it she proved that cancer is inherited and not contagious and can be provoked by irritation only in people who have inherited a tendency for the disease.

In geology many women have become important in the oil industry ; for instance, Mrs. Fanny Carter Edson, chief geologist of Cimarron Petroleum Corporation. She was the first woman to graduate from the University of Wisconsin with a geology degree. While studying oil-well drillings under a microscope, she noticed bits of semi-precious stones and wondered if such fragments could determine each type of oil-producing formation. An analysis took place and the jewel theory proved to be correct; thus, she discovered the Marshall Pool in Oklahoma which has produced fifteen million barrels of oil and is still active.

Chemistry offers Dr. Louise Stanley who is the head of the Bureau of Home Economics in the Department of Agriculture in Washington. In this department the entire staff is made up of women, headed by Dr. Stanley.

In medicine, a most important sub-division of science, women have been famous for many years. Carrying on this tradition is Alice Hamliton, the only woman on the faculty of the Harvard Medical School. Sister Kenny is another who is famous throughout the world for her contribution to the treatment of the dread childhood disease, infantile paralysis.

From physics come two women who rank with the greatest scientists of all time, Madame Marie Curie and Dr. Lise Meitner. In 1896 the French scientist, Henri Becquerel, performed an epoch-making experiment. He found that the element uranium gave off radiations similiar to X-rays. Madame Curie, in collaboration with her husband Pierre, began, a few months later, a series of experiments to find other radioactive elements, if any. Upon noticing that the mineral pitchblende was four times as active as uranium, she concluded that an unknown element was present. After working over several tons of the mineral, she succeeded in isolating a few milligrams of a compound of an element which she called radium. Several years later she succeeded in isolating the pure metal—a most difficult task. The trio, Becquerel and the Curies, received jointly the Nobel Prize in physics in 1903.

These experiments were most important because the radioactive elements radiate a tremendous amount of energy as they disintegrate and form simpler and lighter atoms, later leading to the discovery of atomic energy.

When the dream of utilizing atomic energy was finally realized in 1945, attention was focussed on several scientists, including Lise Meitner, Austrian physicist and mathematician, who played a significant part in the development of the greatest scientific achievement in centuries. Dr. Meitner, while studying under the great German scientist and Nobel Prize winner Dr. Max Panck, became fascinated by the discovery of radium by Madame Curie. At this time she also began her work with Dr. Otto Hahn, studying and discovering several radioactive elements. In 1938 with an atomic microscope which they devised, they observed the element barium when they fired neutrons at the uranium atom. Dr. Meitner, however, had to leave Germany when the Nazis came into power. Upon her arrival at Stockholm, Sweden, she solved mathematically that uranium produced barium and kryton—a startling new discovery. Her nephew Otto Frisch gave this news to Dr. Neils Bohr in America, who, in turn, announced it to the scientific world. Thus the Oak Ridge, Tennessee Project was begun, later producing the atomic bomb, which proved so effective and deadly in its accomplishments.

With such great women genuises as predecessors, the young woman of today has a far wider field in which the scope of her career can lie, at the same time benefiting humanity by noble endeavors.

Radio in Progress

by

CHARLEEN PALMER

When, in 1896, Guglielmo Marconi transmitted the first Morse Code message through a crude apparatus to a receiver two miles away, he felt that he had at last achieved his greatest desire, a wireless means of communication. Then Lee DeForest invented a vacuum grid tube, without which no further progress could have been made.

There were many who were skeptical of the success of these innovations upon which the scientists were working. At one time even DeForest was on trial, because it was believed that he was defrauding the public. A quotation concerning this trial, a favorite of Dr. Phillipe Emmanuel Le Corbeiller, Lecturer on Applied Physics at Harvard University, is:

> "DeForest has said in many newspapers and over his signature that it would be possible to transmit the human voice across the Atlantic before many years. Based on these absurd and deliberately misleading statements, the misguided public has been persuaded to purchase stock in his company."

Only two years later, in 1914, the first transatlantic message was sent through the use of a development of his vacuum tube. By induced currents, radio girdled the world with sound vibrations of music and the human voice, for the phenomenon of the electric waves was solved.

The first regular radio broadcasting plant in the world was set up by Dr. Frank Conrad of Westinghouse in his garage in 1920. The station was KDKA and broadcast for two hours and thirty minutes each day. A typical broadcast period would include selections of religious records on Edison's phonograph and a three minute stand-by interval, followed by more records, and another three minute stand-by. As Lowell Thomas so aptly puts it,

> "At that period in broadcasting, listeners had to take practically Milton's poetical dictum, 'They also serve who only stand and wait.' "

A network hook-up first occurred when WNAC of Boston and WEAF of New York joined forces in January, 1923. Later, station WEAF was sold to the General Electric Company in 1926 and the first national network, the National Broadcasting or N.B.C., was organized. Will Rogers mimicked Calvin Coolidge's nasal twang so well on the premiere N.B.C. broadcast that many of the ten million listeners believed that is was actually the President speaking. From these crude beginnings has come the radio as we know it today. It has become a tremendous influence in our lives; in fact, it now is practically a necessity in the modern world.

The field of possibilities of the radio in education is untouched save for a mere scratching of the surface and, to quote Joyce Morgan, editor of the Journal of the National Education Association;

> "Radio will universalize learning. It is the most powerful stimulus that has ever come to the human mind. It brings instantly to untold millions the very thinking processes of the best minds. Psychologists have pointed out that an interested audience practically breathes with the speaker."

In recent years, in our own school, we have often heard important messages of the President or of Congress. It was a never-to-be-forgotten experience to hear the memorial broadcast for President Roosevelt on the day after his death in April, 1945. Serious thinking was caused when President Truman gave his address on the need of Universal Military Training, or at least selective service, in the post-war world. The boys, who indeed were the ones that would be most affected if such bills were passed, sat raptly intent on every word.

Yet radio can bring so much more to our school curriculum, raise its education value to such a degree as to be absolutely essential in the courses of study. A dramatic presentation of the favorite stories of America, the contemporary works of our modern writers, or the enactment of the world's truly great classics, Shakespeare for example, would help the student to retain the full richness of the literature. Dramatization breathes life into facts, and can, therefore, pleasurably transform required reading into delight for everybody.

Distinctly educational programs are "Science in the News," "America's Town Meeting of the Air," "The School of the Air," and many others such as political discussions, talks on art, literature, and drama.

Now let us consider briefly the radio in the home. It has helped to preserve the domestic happiness and integrity of American life by providing entertainment for all. No other agency could be of more influence than the home. In it are the issues of life—the soil into which we reach for spiritual nourishment and security. Whatever radio can do to strengthen the family circle is clear gain and contributes directly to a better life.

Musical programs, serious, light, and popular, constitute fifty-two per cent of the total "time on the air" and have the most universal appeal to the family. Mother enjoys the dramas; Father listens regularly to the news, baseball games, and weather reports; Sis tunes in the variety and comedy shows, while little Brother must have his daily adventure stories. Certainly, if there is only one radio, the family must compromise these widely diversified tastes, hence learning the art of co-operation.

Now what of the future? Amazingly rapid advances have been made in electronics, which includes both radio and television. Small individual radio sets will soon be on the market. There are countless practicable applications for the use of these pocket-sized radios. Then there is television, the most spectacular and exciting phase of radio at present, a visual broadcast. Imagine seeing flashed upon the screen in simultaneous sight and sound a news event of major importance as it is taking place!

The progress of radio has been unusually rapid and wide in accomplishment. As time continues, it will prove an important factor in helping to promote world peace by better acquainting all countries and bringing the world to a more sympathetic understanding.

REFLECTOR STAFF

This issue marks the completion of the twenty-fifth year of publication of the *Reflector;* a year full of interesting and enjoyable work.

Since its start in the school year, 1922-1923 by Mr. William Shields, it has been the aim of the many staffs to present to their readers an enjoyable and instructive publication. Such has also been our aim which we hope has been in some way fulfilled.

For the first time since the war, the Southeastern Massachusetts League of School Publications has been able to reorganize. Its purpose is to interchange ideas by various staffs and to receive suggestions for the solution of many difficulties. Weymouth was host at the initial meeting in February. Members of our staff also attended meetings at Pembroke and at Attleboro.

To our faculty advisers, Mr. Brown, Miss White, and Mr. Steele, we owe a sincere vote of gratitude for all the help they have given us. To Mr. Duncan, printing instructor, whose cooperation and helpfulness were "tops," we give our thanks.

May those who succeed us have as pleasant a year as did we, the staff of 1947-1948.

CHOIR

The Choir has successfully completed its fourth year under the capable leadership of Mr. Russell Jack. During the year they took part in the Spring and Winter Concerts and also gave a program for the Adams School P. T. A., the Monday Club, and the Teachers' Association.

This year the choir elected officers for the first time. They were Katherine Weeks, president; Judith Anderson, vice-president; Joanna Thompson, secretary; and Karl Anderson, treasurer.

Five choir members, along with members of the band and the orchestra, attended the New England Concert Festival in South Portland, Maine, April 7-10. The choir attended the State Festival at Brockton on May 8 and the New England Festival at Hampton Beach, New Hampshire, May 20-21.

All members are looking forward to another enjoyable year.

ORCHESTRA

Notwithanding a rather small violin secton, an improved orchestra took the stage at this year's Winter Concert held January 16. Throughout the year, under the direction of Mr. R. H. Jack, the members have presented a varied assortment of pieces familiar to music lovers. The annual Spring Concert came on May 14, and the orchestra furnished selections at the Senior Play.

This year, at last, some of the members attended the New England Concert held in South Portland, Maine, where they joined with one hundred fifty other young musicians from all over New England in the mass orchestra.

BAND

Once again Mr. Russell Jack led our band through an exciting year. In addition to musical performances at the football games, the members of the band gave the usual spring and winter concerts on January 16 and May 14. On March 12 they presented a combination concert with the Keene High School A Capella Choir, while May 8 and 21-22 saw the State and New England Music Festivals at Brockton and Hampton Beach, New Hampshire, respectively.

May next year's band have as successful a year!

The officers for 1947-1948 were:

STUDENT COUNCIL

The Student Council continued its regular functions this year by providing assistant supervision in the lunchroom and during fire drills. Among the various new activities were the presenting of a number of assemblies and the planning of a Sanitation Commission, which will probably fully develop next year. On December 5 the Council sponsored a successful Athletic Dance. Later they took charge of selling the high-school pins.

The Convention of the Southeastern Branch of Associated Bodies of Student Councils was held at Weymouth High School on April 8, 1948.

To the Student Council of 1948-1949, best wishes for an active and prosperous year!

CHEER LEADERS

With the addition of two new girls, Patty Pitcher and Barbara MacDonnell, the eight Weymouth cheerleaders helped boost the various athletic teams this year. In the attempt to arouse the spirit of the student body, a number of "pep" rallies were held in the auditorium. A special Thanksgiving rally was held preceding the Hingham-Weymouth football game, entitled "Ask the Janitor." Many thanks go to Miss Toomey and Mr. Ghiorse of the faculty for aiding in this performance.

Of the eight girls, seven will graduate this year leaving Mary Loud to form a new cheering squad to cheer next year's athletic teams on to many victories. Best of luck to you and your girls, Mary!

FOOTBALL

Weymouth took to the field again with one of its famous feather-weight teams. This year's was probably the lightest in Weymouth's history, but with the ever-efficient coaching of Harry Arlanson, they soon became one of the leading contenders for the state title. Fate, however, had its say, for after losing to both Quincy teams, they had to be content to take a position with the high runners-up.

With the aid of the T-Formation and team spirit, they entered the Jamboree and sent powerful Brockton to a 7-0 defeat and proceeded on with a season record of eight wins and two losses.

Weymouth 27	Hingham 0

Front row: Coach Harry Arlanson, Kenneth Perkins, Neil Russo, John DiGravio, Ralph De Vito, James Coveney, Arthur Garcia, Edward Williams, Charles Barcelo, Frank Boyle, John Gannon, Peter Doherty, Assistant Coach Leo Hayes. Second row: John Branley, Hugh Moore, Edward DeLuca, Arthur Valicente, John Bagen, Edward Warrell, Herbert Fairfield, Donald Vaillancourt, Colin Barrows, Philip DiTullio, Robert Savola, John Julian. Third row: Gerald Strebe, Guido Caracciolo, Eugene Corridan, Charles DeCoste, James Kane, John Coveney, Robert Clow.

BASEBALL

Coach Harry Arlanson is looking forward to a successful season. He has many letter men returning. Included in this group are Captain Jim Coveney, Johnny DiGravio, Ralph DeVito, Ted Williams, and Charlie Barcello. New players who will probably round out the starting team are Art Garcia, Dick McBurnie, Jackie Branley, and "Blondie" Bagon. The team is playing an eleven-game schedule as follows:

April	30	Weymouth at Hingham
May	4	Weymouth at North Quincy
May	7	Weymouth at Abington
May	11	Hingham at Weymouth
May	14	Braintree at Weymouth
May	21	North Quincy at Weymouth
May	26	Weymouth at Brockton
May	28	Weymouth at North Quincy
June	1	Weymouth at Braintree
June	4	Brockton at Weymouth
June	7	Abington at Weymouth

Front row: Coach Oral Page, Francis Butler, Barry Connell, Capt. Richard Smith, Alan Loud, John Lyons, Robert Parsons, Harold Breach, Richard Rosa. Second row: Albert Clow, Francis Johnson, Edward Keohan, Kenneth Young, Edwin Warrell, Peter Hamre, Rodney Steele, Donald Brayshaw. Third row: David Conrad, Assistant Manager Richard Powers, Manager Ronald Bresnahan, Robert Haviland, James Hassett, Michael Murphy, David Cain.

TRACK

NOTWITHSTANDING the threatening weather, a large group of boys went out for Winter Track this year. These fellows all worked hard and the scores in the final analysis showed their effort. Weymouth was undefeated in dual meets this season, the boys taking in stride some tough competition. The Northeastern Meet in Boston showed a powerful Weymouth team. The fourth place the boys took showed them where their weak points were, as well as establishing some new records. In the State Meet, the boys met competition from all over Eastern Massachusetts. The team took third place behind Watertown and Arlington with nineteen points. Oddly enough, Weymouth beat Watertown in a dual meet after losing to them in the State Meet. This shows what determination can do!

Weymouth 45	Brookline 32
Weymouth 64	North Quincy 13
Weymouth 48 1/3	Watertown 28 2/3
Weymouth 50	Brockton 27
Weymouth 39	Huntington 38

First row: Mr. Page, Peter Doherty, Robert Smith, John Oullety, J. Savolla, R. Litchfield, James Horace, John Gorman Manager. Second row: L. Fulton, R. White, R. Steele, R. Parson, G. McMullin, Alan Loud: Third row: N. Fulton, J. Fardig, R. Cane, J. Doherty, Jerome Pickett, Manager.

CROSS COUNTRY

Weymouth High's Cross Country team struggled through the season with only two out of eight victories to their credit. Although this was not so glorious a record as that piled up by their forerunners, the team did a good job. Having lost all but one letter man, Mr. Page had to build up a new team this year. They also were set back when Rodney Steele, one of the most important scorers, could not run because of a broken hand. The boys took seventeenth place in the State Meet and fifth place in the South Shore Cross Country Meet held at Braintree.

Low score wins:

Braintree 19	Weymouth 42
Weymouth 20	Rockland 37
Brookline 25	Weymouth 34
Braintree 23	Weymouth 36
Brockton 26	Weymouth 24
Weymouth 24	Quincy 33
Milton 25	Weymouth 30
North Quincy 27	Weymouth 32

First row, left to right: Manager Earle Binckley, Vernon Drysdale, John Gannon, Arthur Garcia, James Coveney, Coach Mr. Erwin; Second row: George Bicknell, John Delahunt, Captain Robert Murphy, Donald Ferullo, Bernard Healy, Russell Slattery.

BASKETBALL

Coach Erwin and his basketball team, although not having too impressive a record, played some thrilling games. Mr. Erwin had no letter men returning. Starting from scratch, he furnished a team with plenty of fight and spirit. Led by Captain Bob Murphy, who was the outstanding player throughtout the year, the team defeated Hingham, Rockland, Brockton, and Braintree. The Braintree game was exciting all the way and, up to the last minute when Murphy dropped the winning basket, the game could have gone either way. The starting team this year was Jimmy Coveney and Art Garcia, forwards; Billy MacKinnon and Bicknell, guards; Bob Murphy, center. Russ Slattery and Captain-elect Jack Delahunt also saw a great deal of service along with Jackie Gannon.

MANAGERS' CLUB

The Managers' Club was organized in 1946 for the purpose of aiding the managers of the various sports to meet to discuss their difficulties.

Each town in the South Shore area has a Managers' Club. In the previous two years all these clubs have met together, first at Hingham and then at Braintree, in order to compare methods and also to have a good time. This year Weymouth played host.

OFFICERS FOR 1947-1948

President, Rodney Steele
Secretary-Treasurer, Earle Binckley

First row: Natalie Duncan, Ruth Jordan, Patricia Pitcher, Barbara MacDonnell, Phyllis Farr, Charleen Palmer, Miss Flaherty; Second row: Barry Connell, Mary Chubbuck, Regina Banks, Elaine Norris, Roy Lopas, Edward Aleman; Third row: Lawrence Shaw, Phillip Brandt, Richard Laneau, Arthur Garcia, Roy Peterson, Jack Nickerson.

SENIOR PLAY

In 1948 the Senior Class dared to be different and presented a mystery-comedy, "Home Sweet Homicide," by Ann Reynolds and Craig Rice, on the nights of February 12 and 13. Miss Edna Flaherty of the faculty did an excellent job in her role as directress of the play.

The story concerned Marion Carstairs, a mystery-story writer, and the efforts of her three children, Archie, April, and Dinah, to unite her in marriage with Lieutenant Bill Smith, a detective who was investigating a murder next door. The many hilarious situations in which the children found themselves when they attempted to solve the mystery and win Lieutenant Smith for a father provided an amusing evening's entertainment for a capacity audience each night, even though the second performance was on Friday the thirteenth.

ORATORICAL CONTESTANTS

THE annual oratorical contest sponsored by the Weymouth American Legion Post 79 was held at Legion Hall on February 3, 1948.

The subjects of the talks by the contestants were:

BARBARA BROOKS—"The Constitution—A Barrier Against Tyranny"
WILLIAM BURDON—"The Rights We Defend"
PHYLLIS FARR—"The History of the Constitution"
CAROLYN THOMPSON—"The Framing Fathers"

In a close contest, Barbara Brooks was judged the winner; Carolyn Thompson was chosen as alternate. Judges of the contest were:

MISS ALICE WHITE, *Weymouth High School*
MISS ETHEL MACDOUGALL, *Weymouth High School*
MRS. FLORA H. MCGRATH, *Weymouth School Department*
MISS VIRGINIA NYE, *Weymouth High School*
MRS. ALICE B. WALLACE, *Hunt School*

PROJECTION CLUB

The Projection Club, under the direction of Mr. Cleaves, was organized in October. The students received eight weeks' instruction in the operation of projectors. At the end of the course all members were issued membership cards. The purpose of the club is to train students to operate projection machines whenever needed for classes.

Our gratitude is extended to Mr. Cleaves, who has been a great help to us; and may we give our best wishes for success to next year's club members, who we hope will find as much pleasure in their work as we have found in the past.

Edward Alemian, *Manager*
Sidney DeBoer, *Assistant Manager*
Jean Colarusso, *Secretary*

First row: Harry Thompson, Edith Holland, Gerald Fitzgerald, Barbara Nelson, Marian Carr, Jane MacKenzie, Lois Melville; Second row: Phillip Mariner, Susan Fitzgerald, Jane Barker, Barbara Chellis, Marie Ellard, Joanne Monohan; Third row: Janet MacDonald, Margaret Steeves, Janet Heaver, Eleanor Wardwell, Muriel Knight. Fourth row: Beverly Cobbs, Ethel Colby, Marilyn Hanson, Dorothy Chellis; Fifth row: Carolyn Thompson, Mary Chubbuck, Janet Melville, Judith Anderson.

FRENCH CLUB

This past year, under the direction of Miss Canning, the French Club had many successful meetings conducted in French. After the business meeting the entertainment committee appointed for the meeting led the members in a game or some other form of entertainment, also carried on in French.

On January 12 the club presented a play entitled, "Nos Interprétations d'une Journée dans une Ecole Français" in the library. Many of our women teachers attended. Refreshments were served.

On March 15 the club enjoyed a program of French music in the library. The members of the school faculty and the "Listening Room" were invited.

The club continued to send packages to the nine-year old French orphan, Moniquet Minquet, who was adopted by last year's club. Two packages were sent each month—one of food, the other of clothing. Moniquet lives in Desores, France. Her father was killed in 1940 and her mother died in 1943. She was adopted by her uncle, regional head of a Resistance Group, who died in a German prison camp in Nordhausen, February, 1945.

First row: John Moore, Anne Panetta, Albert Monahan, Gloria Moore, Helen Stenberg, Edith Holland, Robert Parsons, William Livingstone, Barry Wood, Fred Lesh; Second row: Donald Coleman, John Gallagher, Lois Melville, Doris Rees, Janet Buchanan, Mildred Nyberg, Jean McGoldrick, Jane Barker; Third row: Roy Cass, Clifford Currier, Phyllis Densmore, Judith Anderson, Janet Melville, Virginia Nelson, Howard Goodwin, Joseph Merten; Fourth row: John Mills, Donald Ferguson, Henry Lundquist, Carter Hollis, Robert Peterson, Arnold Blackwell; Fifth row: Russell McPhee, Mr. Cleaves.

SKI CLUB

The Ski Club got off to a good *schuss* this past season with a large membership of pupils from every class.

Officers were elected as follows: William Livingstone, president; Robert Parsons, vice-president; Helen Stenberg, secretary; Gloria Moore, assistant secretary; and Edith Holland, treasurer.

Because of an over abundant supply of "tapioca" in local spots, the club enjoyed many trips to the South Shore Country Club and an outing to Gilford, New Hampshire.

The present members wish to thank Mr. Cleaves for his wonderful support in organizing this club, and wish to offer students a cordial invitation to become members in the coming year.

Class Will

We, the Class of 1948, in order to express our gratitude and appreciation to those who have guided and assisted us through our high school years, do give and bequeath the following:

To our Superintendent and the School Committee—a word of thanks for their untiring efforts in behalf of all the youth of Weymouth.

To Mr. Whittle—a new loud-speaker system to insure clear-as-a-bell announcements at all times. This should result in a much better informed student body.

To Mr. Whipple—a lounging room with overstuffed chairs directly outside his office for pupils waiting for admittance slips.

To Mr. Lyons—a time clock for the use of students who come and go at irregular hours.

To Room 211—a new teacher's desk with push buttons to facilitate opening drawers.

To Room 212—a new leg for the gentleman on the plaque given by the class of '88. The poor fellow must be tired of standing on one leg.

To Room 216—a Handy Repair Kit for each desk and a copy of "Be Your Own Repairman." This should remedy the broken-chair situation and also give the boys some practical experience.

To Room 217—a new phonograph with *one* record entitled "Now Let's Be Reasonable."

To Room 218—a Rube Goldberg invention for erasing the boards between classes. If this invention proves successful, we suggest that it be installed in all of the rooms at a later date.

To Room 221—a more centralized location, so that those poor, tired seniors won't have so far to walk to classes.

To Room 304—an oxygen tent for first-aid treatment of those who attempt the long, hard climb without having had their "Wheaties" for breakfast.

To Mr. Whittemore—a heavy gauge steel community lunch locker with a time lock which opens at 11:10 A.M. This should keep the seniors away from their lunches between periods.

To the Freshmen—Alpine caps to be used next year when they serve as guides for the incoming class.

To the Sophomores—the thrill of being upperclassmen.

To the Juniors—the Herculean task of taking our places in the school. This should be not only difficult, but next to impossible.

And to the faculties of Weymouth High and Weymouth Trade Schools, we leave the hope that students of the future will try to apreciate and benefit by your understanding guidance.
